Advantages offered by this Company, which is composed of Mutual and Proprietary Branches:—

The security of a subscribed capital of 250,000l.

In the mutual branch the whole of the profits are divided amongst the holders of policies on which seven annual premiums have been paid.

In the proprietary branch the lowest possible rates of premium consistent with the security of the assured.

Credit given for half the premiums for the first seven years, and increasing premiums commencing at exceedingly low rates.

Naval and military men assured at the ordinary rate when on home service, with a moderate additional charge for licence to proceed to any part of the world.

The usual commission allowed to medical men, solicitors, and agents.

In all cases where a medical report is given, the fee is paid by the Company.

The business and interest of the Etonian Assurance Company have been transferred to this Society.

Policies in this office are indisputable, except in cases of fraud.

Persons who have been seen by a medical officer of the Society are not required to appear before the directors.

"Free Policies" are issued, at a small increased rate of premium, which remain in force although the life assured may go to any part of the world.

Policies do not become void by the life assured going beyond the prescribed limits—so far as regards the interest of third parties—provided they pay the additional premium, so soon as the fact comes to their knowledge.

Parties assuring within six months of their last birth-day are allowed a diminution of half a year in the premium.

The Tables are especially favourable to young and middle-aged lives, and the limits allowed to the assured, without extra charge, are unusually extensive.

Eighty per cent. of the profits are divided at the end of every five years among the assured.—At the first division, to the end of 1846, the addition to the amount assured averaged above 30 per cent. on the premiums paid.
